AUTHORITY AND REFERENCE

Government Code section 12935(a) authorizes the Council to adopt these proposed regulations. The proposed regulations implement, interpret, and make specific section 12900 et seq. of the Government Code.

INFORMATIVE DIGEST/ POLICY STATEMENT OVERVIEW

This rulemaking action clarifies, makes specific, and supplements existing state regulations interpreting the Fair Employment and Housing Act ("FEHA") set forth in Government Code section 12900 et seq. As it relates to employment, the FEHA prohibits harassment and discrimination because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, and military and/or veteran status of any person.

In compliance with the Administrative Procedure Act, the Council proposes to adopt these rules as duly noticed, vetted, and authorized regulations. The overall objective of the proposed amendments is to describe how the Fair Employment and Housing Act applies to transgender individuals in the employment context, primarily by centralizing and codifying existing law, clarifying terms, and making technical corrections. This action has the specific benefit of clarifying an often misunderstood area of the law, in turn reducing litigation costs and court overcrowding. Ultimately, the proposed action furthers the mission of the DFEH by protecting transgender Californians from employment discrimination.

In addition to technical amendments and generally prohibiting discrimination, the proposed amendments

clarify and/or articulate the following: (1) the definition of “transitioning”; (2) that employers shall provide equal access to facilities and appropriate alternatives, based in part on employees’ gender identity or gender expression; (3) that transitioning employees are not required to provide proof of medical treatment to use the facility of their choice; (4) the appropriate facility signage for single-occupancy facilities; (5) that employers may not require employees to dress or groom in a manner inconsistent with their gender identity or expression; (6) the rules regarding transgender employees and the recording of gender or name; and (7) when requiring documentation of sex, gender, gender identity, or gender expression is lawful.

The Council has determined that the proposed amendments are not inconsistent or incompatible with existing regulations. After conducting a review for any regulations that would relate to or affect this area, the Council has concluded that these are the only regulations that concern the employment provisions of the Fair Employment and Housing Act.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Council has made the following initial determinations:

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: No additional costs or savings beyond those imposed by the Fair Employment and Housing Act.

Cost to any local agency or school district, which must be reimbursed in accordance with Government Code sections 17500 through 17630: None.

Other nondiscretionary cost or savings imposed on local agencies: No additional costs or savings beyond those imposed by the Fair Employment and Housing Act.

Cost or savings in federal funding to the state: None.

Cost impacts on a representative private person or businesses: No additional costs or savings beyond those imposed by the Fair Employment and Housing Act. Therefore, the agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Results of the economic impact assessment/analysis: The Council anticipates that the adoption of the regulations will not impact the creation or elimination of

jobs within the state, the creation of new businesses or the elimination of existing businesses within the state, or the expansion of businesses currently doing business within the state. To the contrary, adoption of the proposed amendments is anticipated to benefit California businesses, workers, and the state’s judiciary by clarifying and streamlining the operation of the law, making it easier for employees and employers to understand their rights and obligations, and reducing litigation costs for businesses.

Statewide adverse economic impact directly affecting businesses and individuals: The Council has made an initial determination that the proposed action *will not* have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

Significant effect on housing costs: None.

Small Business Determination: The Council anticipates that the regulations will not create additional costs or savings beyond those imposed by existing regulations. Similarly, the Council has determined that there is no impact on small businesses as a result of this proposed action because these regulations primarily serve to clarify existing law.

Business Report: The Council has determined that the proposed regulations do not require a report to be made.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Council must determine that no reasonable alternative it considered or that has otherwise been identified and brought to the Council’s attention would be more effective in carrying out the purpose for which this action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Council has thus far not become aware of a better alternative and invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

**INFORMATIVE DIGEST/POLICY STATEMENT
 OVERVIEW**

The California Department of Food and Agriculture’s (CDFA’s) Fertilizing Materials Inspection Program (FMIP) is statutorily tasked with licensing and label registration, tonnage reports, field inspections, and administration of the Fertilizer Research and Education Program (FREP). The FMIP is responsible for reviewing and registering product labels, promoting agronomically sound and environmentally safe use of fertilizing materials through FREP, and ensuring fertilizing materials are safe, effective, and meet the nutrients guaranteed by the manufacturer. Producers of specialty fertilizer, packaged agricultural mineral, auxiliary soil and plant substance, organic input material (OIM), and packaged soil amendment are statutorily mandated to register with the FMIP.

The objective of the proposed regulations is to clarify the statutes in the Food and Agricultural Code (FAC) related to labeling, sampling, registration, inspection protocols, and reporting of fertilizing materials. The proposed changes provide improved clarity and uniformity, and correct outdated, ambiguous, or vague language using more applicable and precise terminology. Furthermore, many of the proposed changes provide improved transparency with fertilizer labeling and offer fuller disclosures for the end user. These changes would help the fertilizer industry and consumers to better understand the law, as well as the ingredients, directions for use, and safety of the products.

Documents Incorporated by Reference

CDFA, Form 513-130 (Rev. 10/15), Experimental Fertilizing Material Research Notification

CDFA, Form 513-135 (Rev. 10/15), Experimental Fertilizing Material Field Trial Report

CDFA, Form 513-026 (Rev. 7/13), Organic Input Material Fertilizing Materials Registration Application

Anticipated Benefits of the Proposed Action: The Department anticipates regulations will provide improved clarity and uniformity to the fertilizer industry. These changes will be beneficial to consumers to assist them to better understand the context of the original regulations. Similarly, many of these regulations provide better transparency with fertilizer labeling and offer improved disclosures for the end user.

The proposed adoption to the regulations will clarify references in statute and provide guidance for label evaluation. The fertilizer industry will receive additional guidance through tangible labeling examples that can be applied when creating its own labeling, thereby assisting to expedite the registration process and permitting lawful sales of fertilizing products in California.

There is no existing, comparable federal regulation or statute regulating fertilizing materials. The Department is the only agency which can implement regulations pertaining to fertilizing materials. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of this regulation and has determined that it is not inconsistent or incompatible with existing state regulations.

**DISCLOSURES REGARDING THE
 PROPOSED ACTION**

The Department has made the following initial determinations:

Mandate on local agencies and school districts: None.

Cost or savings to any state agency: None.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None.

Other nondiscretionary cost or savings imposed on local agencies: None.

Cost or savings in federal funding to the state: None.

Cost impacts on a representative person or business: The Department is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

**RESULTS OF THE ECONOMIC IMPACT
 ASSESSMENT/ANALYSIS**

The Department has initially determined that the proposed regulatory action would not have an economic or fiscal impact to the fertilizer industry.

These regulations will not:

- (1) Create or eliminate jobs within California;
- (2) Create new businesses or eliminate existing businesses within the State of California; or
- (3) Affect the expansion of businesses currently doing business within the State of California.
- (4) The benefits of the regulation to the health and welfare of California residents, worker safety, and the state's environment: As stated under the Informative Digest/Policy Statement Overview above, the proposed regulations will provide improved clarity and uniformity to the fertilizer industry. Many of these regulations will provide better transparency with fertilizer labeling and offer improved disclosures for the end user. The proposed adoption to the regulations will clarify references in statute and provide guidance for label evaluation. The fertilizer industry will receive additional guidance through tangible labeling examples that can be applied when creating their own labeling, thereby assisting to expedite the registration process and permitting lawful sales of fertilizing products in California. These changes would help the fertilizer industry and consumers to better understand the law, as well as the ingredients, directions for use, and safety of the products.

The proposed amendments and adoptions provide critical information that has been previously omitted from regulation and/or clarify previously unclear or confusing language. None of the proposed regulatory actions are inconsistent or incompatible with existing state regulations. For additional information on benefits, please see Anticipated Benefits under the Informative Digest/Policy Statement Overview.

Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None.

Significant effect on housing costs: None.

SMALL BUSINESS DETERMINATION

The proposed regulations will not affect small businesses. For required label changes, licensees will not have to revise their labels until the next registration renewal cycle. This will allow the changes to be integrated into the normal business practices of reprinting labels with no additional costs. Firms may utilize their current labels until updated versions are created during their two-year renewal cycle, as a regular course of business.

CONSIDERATIONS OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Department must determine that no reasonable alternative is considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed, would be as effective, and less burdensome to affected private persons than the proposed action or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Department invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period or, if requested, at a scheduled hearing.

TITLE 16. BOARD OF ACCOUNTANCY

NOTICE IS HEREBY GIVEN that the California Board of Accountancy (CBA) is proposing to take the action described in the Informative Digest. Any person interested may present statements or arguments orally or in writing relevant to the action proposed at a hearing to be held at The Hilton Los Angeles Airport, 5711 West Century Boulevard, Los Angeles, CA 90045 at 1:30 p.m., on July 21, 2016. Written comments, including those sent by mail, facsimile, or e-mail to the addresses listed under Contact Person in this Notice, must be re-

ceived by the CBA at its office not later than 5:00 p.m. on June 27, 2016 or must be received by the CBA at the hearing. The CBA, upon its own motion or at the instance of any interested party, may thereafter adopt the proposals substantially as described below or may modify such proposals if such modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Authority and Reference: Pursuant to the authority vested by Sections 5010 and 5027 of the Business and Professions Code (BPC), and to implement, interpret or make specific Section 5027 of said Code, the CBA is considering changes to Division 1 of Title 16 of Sections 80.1, 80.2, 87, and 87.1 of the California Code of Regulations (CCR) as follows:

INFORMATIVE DIGEST

A. Informative Digest

BPC section 5027 authorizes the CBA to adopt, amend or repeal rules regarding continuing education exercising its power under this section for the interests of consumer protection; the board shall establish standards which will assure reasonable currency of knowledge as a basis for a high standard of practice by licensees.

The regulatory proposal is as follows:

Section 80.1

These proposed amendments would require, for conversion or restoration to active status prior to renewal, eight hours of continuing education (CE) in preparation engagements or accounting and auditing (A&A) for licensees who, as the highest level of service, provided preparation engagements in the prior two years and four hours of CE in the prevention, detection, and/or reporting of fraud affecting financial statements. Section 87 outlines the CBA's basic CE requirements. Section 80.1 outlines prorated amounts of those basic requirements. The proposed amendment is being added to this section in order to continue the proration of section 87 in this section.

Section 80.2

These proposed amendments establish, for licensees who, as their highest level of service, provided preparation engagements, a prorated CE requirement in preparation engagements or A&A following conversion or restoration to active status during the renewal period at two hours for each 20 hours of CE required and four

hours of CE in the prevention, detection, and/or reporting of fraud affecting financial statements. Section 87 outlines the CBA's basic CE requirements. Section 80.2 outlines prorated amounts of those basic requirements. The proposed amendment is being added to this section in order to continue the proration of section 87 in this section.

Section 87

These proposed amendments establish and define the CE requirements for licensees who, as the highest level of service, provided preparation engagements. Specifically, the proposal requires such a licensee to complete eight of the 80 required hours of CE in preparation engagements or A&A. Further, such licensees would be required to complete four hours of CE in the prevention, detection, and/or reporting of fraud affecting financial statements.

Section 87.1

These proposed amendments establish, for new licensees who, as their highest level of service, provide preparation engagements, a prorated CE requirement in preparation engagements or A&A following initial licensure for the first renewal period at two hours for each 20 hours of CE required. In addition, it requires such licensees to complete four hours of CE in the prevention, detection, and/or reporting of fraud affecting financial statements. Requiring CE in preparation engagements or A&A and in the prevention, detection, and/or reporting of fraud affecting financial statements in this section maintain its consistency with section 87.

B. Policy Statement Overview/Anticipated Benefits of Proposal

This proposal protects consumers by requiring licensees who perform preparation engagements as their highest level of service to take required CE specific to preparation engagements or A&A, thereby assisting in maintaining professional competency.

C. Consistency and Compatibility with Existing State Regulations

During the process of developing these regulations and amendments, the CBA has conducted a search of any similar regulations on this topic and has concluded that these regulations are neither inconsistent nor incompatible with existing state regulations.

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

None.

Nondiscretionary Costs/Savings to Local Agencies:

None.

Local Mandate:

None.

Cost to Any Local Agency or School District for Which Government Code sections 17500–17630 Require Reimbursement:

None.

Business Impact:

The CBA has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

AND

The following studies/relevant data were relied upon in making the above determination. The CBA presently requires certified public accountants to complete 80 hours of CE each two-year renewal cycle. For those providing preparation engagements as their highest level of service, this proposal specifies particular CE subjects for a portion of those hours and does not add to the total hours required. Costs associated with changes to the continuing education should be minor and absorbable to the business since the licensee still must complete 80 total hours of CE during each renewal period.

Cost Impact on Representative Private Person or Business:

Costs associated with changes to the CE should be minor and absorbable since the licensee still must complete 80 total hours of CE during each renewal period.

Effect on Housing Costs:

None.

EFFECT ON SMALL BUSINESS

The CBA has determined that the proposed regulations would affect small businesses. This proposal impacts public accounting individuals and firms that as their highest level of service provide preparation engagements. The number of individuals and firms who provide this level of service is currently unknown to

CBA. In addition, it is unknown by the CBA what percentage of those affected are small businesses.

RESULTS OF ECONOMIC IMPACT
ASSESSMENT/ANALYSIS

Impact on Jobs/Businesses:

This action will not create or eliminate jobs within the State of California because the proposed changes are not of sufficient magnitude to create or eliminate jobs or businesses, or affect the expansion of existing businesses in California. The CBA presently requires individual licensees to complete 80 hours of CE each two-year renewal cycle. For those providing preparation engagements as their highest level of service, this proposal specifies particular CE subjects for a portion of those hours and does not add to the total hours required. Costs associated with changes to the continuing education requirements should be minor and absorbable since the licensee still must complete 80 total hours of CE during each renewal period.

Benefits of Regulation:

The CBA has determined that this regulatory proposal will have the following benefits to the health and welfare of California residents, worker safety, and the state's environment.

This regulatory proposal does not affect worker safety because it has nothing to do with worker safety.

This regulatory proposal benefits the health and welfare of California residents because requiring licensees who perform preparation engagements as their highest level of service to take CE specific to preparation engagements or A&A and CE specifically related to the prevention, detection, and/or reporting of fraud affecting financial statements will assist the CBA in its mission of consumer protection by ensuring these licensees maintain their professional competency.

The regulatory proposal does not affect the state's environment because it has nothing to do with the environment.

CONSIDERATION OF ALTERNATIVES

The CBA must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the pro-

posed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above-mentioned hearing.

INITIAL STATEMENT OF REASONS
AND INFORMATION

The CBA has prepared an initial statement of the reasons for the proposed action and has available all the information upon which the proposal is based.

TEXT OF PROPOSAL

Copies of the exact language of the proposed regulations, and any document incorporated by reference, and of the initial statement of reasons, and all of the information upon which the proposal is based, may be obtained at the hearing or prior to the hearing upon request from the CBA at 2000 Evergreen St., Ste. 250, Sacramento, California, 95815.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

These proposed regulations amend the CalWORKs home visit regulations. Current regulations only mandate that home visits be used at the time of application or redetermination when living arrangements or other factors affecting eligibility cannot be satisfactorily determined without such a visit. These proposed amendments clarify that home visits may also be used as a reasonable accommodation to complete the face-to-face interview requirement for CalWORKs applicants who have a mental or physical impairment, or other extreme circumstance, that makes it difficult or impossible to come into the county office.

This regulatory action will help to accommodate people who have a mental or physical impairment, for whom it is difficult or impossible to come in to the county office to complete the face-to-face interview

that is required of all CalWORKs applicants. By specifying that a home visit may be used to accommodate this population, this regulatory action will help ensure that all people can get access to the benefits that they are entitled to. Additionally, these amendments are not applying a mandate that counties complete home visits, they are simply giving counties more administrative flexibility. This additional flexibility will benefit clients without putting a mandate on county workers. Lastly, counties have stated that they are already utilizing this flexibility; this regulatory action will just specify this option in the regulations.

These regulations are neither inconsistent nor incompatible with existing state regulations. After conducting a review for any regulations that would relate to or affect home visits in the CalWORKs program, CDSS has concluded that these are the only regulations that concern this area. Also, this determination was made based on the fact that the purpose of this regulatory change is to clarify what is currently lacking in the regulations. Furthermore, this change will only apply to a very specific segment of the CalWORKs population.

COST ESTIMATE

1. Costs to Savings to State Agencies: None.
2. Costs to Local Agencies or School Districts Which Must Be Reimbursed in Accordance With Government Code Sections 17500–17630: None.
3. Nondiscretionary Costs or Savings to Local Agencies: None.
4. Federal Funding to State Agencies: None.

LOCAL MANDATE STATEMENT

These regulations do not impose a mandate upon local agencies or on school districts. There are no “state-mandated local costs” in these regulations which require state reimbursement under Section 17500 et seq. of the Government Code because any costs associated with the implementation of these regulations are costs mandated by the federal government within the meaning of Section 17513 of the Government Code.

STATEMENT OF SIGNIFICANT ADVERSE ECONOMIC IMPACT ON BUSINESS

The CDSS has made an initial determination that the proposed action will not have a significant, statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This determination

was made based on the fact that this regulatory change is only clarifying that counties have the option to use home visits to complete the intake interview requirement of a face-to-face interview. This additional flexibility will benefit clients without putting a mandate on county workers. Additionally, counties have stated that they are already utilizing this flexibility; CDSS is just specifying this option in the regulations. This regulatory change will only have an effect on certain CalWORKs clients and counties.

STATEMENT OF POTENTIAL COST IMPACT ON PRIVATE PERSONS OR BUSINESSES

The CDSS is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

SMALL BUSINESS IMPACT STATEMENT

The CDSS has made an initial determination that there is no impact on small businesses as a result of filing these regulations because these regulations are only applicable to state and county agencies.

STATEMENT OF RESULTS OF ECONOMIC IMPACT ASSESSMENT

The adoption of the proposed amendments will neither create nor eliminate jobs in the State of California nor result in the elimination of existing businesses or create or expand businesses in the State of California.

The benefits of the regulatory action to the health and welfare of California residents, worker safety, and the state’s environment are as follows: this regulatory action will clarify in regulation that home visits may be used as a reasonable accommodation to complete the face-to-face interview requirement for CalWORKs applicants that have a mental or physical impairment that makes it difficult or impossible to come into the county office. This will ease the burden of the application process on people with a mental or physical impairment and help ensure that all people can get access to the benefits that they are entitled to. Further, by giving counties more administrative flexibility regarding the use of home visits and helping to ensure the consistent reasonable accommodation of CalWORKs applicants from county to county, this regulatory action benefits both county workers and CalWORKs applicants.

The following documents were relied upon in proposing the regulatory action: Welfare and Institutions Code section 11052.5; Government Code sections 11135 and 12926; and All County Letter No. 15–31.

STATEMENT OF EFFECT ON HOUSING COSTS

The proposed regulatory action will have no effect on housing costs.

STATEMENT OF ALTERNATIVES CONSIDERED

The CDSS has made an initial determination that no reasonable alternative considered or that has otherwise been identified and brought to the attention of CDSS would be more effective in carrying out the purpose for which the regulations are proposed or would be as effective as and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law. To date, no reasonable alternatives have been presented for review.

There is no negative effect of this regulatory action. This regulatory action is simply giving counties more administrative flexibility without applying a mandate on counties. This regulatory action is providing flexibility and consistency, which is beneficial for both applicants of CalWORKs and county workers.

**FISH AND GAME CODE SECTION 1653
CONSISTENCY DETERMINATION
REQUEST FOR**

Mill Creek-Talmage Fish Passage Barrier Removal
and Riparian Restoration Project
(Tracking Number: 1653-2016-001-R1)
Mendocino County

California Department of Fish and Wildlife (CDFW) received a Request to Approve on April 4, 2016, that the Mendocino County Resource Conservation District (District) proposes to carry out a habitat restoration or enhancement project pursuant to Fish and Game Code section 1653. The proposed project involves replacing an existing culvert with a single-span bridge, removing existing concrete structures, removing existing riprap, and restoring habitat. The proposed project will be carried out on Mill Creek, tributary to the Russian River, located at 900 Talmage Road (Highway 222), Ukiah, Mendocino County, California.

On February 19, 2016, the North Coast Regional Water Quality Control Board (Regional Water Board) received a Notice of Intent (NOI) to comply with the terms of, and obtain coverage under, the General 401 Water Quality Certification Order for Small Habitat Restoration Projects (General 401 Order) for the Mill Creek-Talmage Fish Passage Barrier Removal &

Riparian Restoration Project (Project). The Regional Water Board determined that the Project, as described in the NOI, was categorically exempt from California Environmental Quality Act (CEQA) review (section 15333 — Small Habitat Restoration Projects) and met the eligibility requirements for coverage under the General 401 Order. The Regional Water Board issued a Notice of Applicability (WDID No. 1B16180WNME; ECM PIN No. CW-822298) for coverage under the General 401 Order on March 18, 2016.

The District is requesting a determination that the project and associated documents are complete pursuant to Fish and Game Code section 1653 subdivision (d). If CDFW determines the project is complete, the District will not be required to obtain an incidental take permit under Fish and Game Code section 2081 subdivision (b) or a Lake or Streambed Alteration Agreement under Fish and Game Code section 1605 for the proposed project.

In accordance with Fish and Game Code section 1653 subdivision (e), if CDFW determines during the review, based on substantial evidence, that the request is not complete, the District will have the opportunity to submit under Fish and Game Code section 1652.

**CESA CONSISTENCY DETERMINATION
REQUEST FOR
Siskiyou Three Bridges Rail Upgrade Project
2080-2016-002-01
Siskiyou County**

California Department of Fish and Wildlife (CDFW) received a notice April 28, 2016 that the California Department of Transportation (Caltrans) proposes to rely on a consultation between federal agencies to carry out a project that may adversely affect a species protected by the California Endangered Species Act (CESA). The proposed project involves upgrading three bridges located on State Route 96. The proposed project will occur at Thompson Creek, Beaver Creek, and Seiad Creek in Siskiyou County California.

The National Marine Fisheries Service (Service) issued a federal biological opinion Service File No. WCR-2015-2682 (BO) and incidental take statement (ITS) to Caltrans on June 26, 2015 which considered the effects of the proposed project on the state threatened and federally threatened Coho salmon (*Oncorhynchus kisutch*).

Pursuant to California Fish and Game Code section 2080.1, Caltrans is requesting a determination that the

BO and associated ITS are consistent with CESA for purposes of the proposed project. If CDFW determines the BO and associated ITS are consistent with CESA for the proposed project, Caltrans will not be required to obtain an incidental take permit under Fish and Game Code section 2081 subdivision (b) for the proposed project.

DEPARTMENT OF HEALTH CARE SERVICES

THE DEPARTMENT OF HEALTH CARE SERVICES PROPOSES TO SUBMIT A STATE PLAN AMENDMENT FOR UPDATING THE MEDI-CAL REIMBURSEMENT METHODOLOGY FOR YEAR 4 OF DIAGNOSIS RELATED GROUP INCLUDING POLICY CHANGE ON THE PROCESS FOR REMOVING APR-DRG HOSPITALS FROM THE NICU-POLICY ADJUSTORS LIST

This notice is to provide information of public interest about the Department of Health Care Services' (DHCS) proposed changes to the All Patient Refined — Diagnosis Related Group (APR-DRG) program for general acute inpatient services provided by private hospitals and nondesignated public hospitals in California, out-of-state hospitals, and hospitals designated by Medicare as critical access hospitals, as authorized under Welfare and Institutions Code section 14105.28 and contained in Pages 17.38-17.62 of Attachment 4.19-A of the State Plan. DHCS is seeking a State Plan Amendment effective July 1, 2016, unless otherwise noted, for noticed items below.

DHCS is seeking federal approval for a State Plan Amendment to implement DHCS' proposed changes to the APR-DRG reimbursement methodology for the Year 4 APR-DRG payment parameters, which will take effect for hospital admissions on or after July 1, 2016. This part of the notice supersedes the prior public notice 15-Z, published on April 8, 2016. Updates to the payment parameters include the following:

- Changes in the APR-DRG grouping algorithm from Version 32 to Version 33.
- V.33 relative weights under the hospital-specific relative value (HSRV) methodology.
- Transition rates for California APR-DRG hospitals will cease. APR-DRG payment rates will no longer receive transition-based adjustments to the APR-DRG payment rate.

- Increases to both Tier 1 and Tier 2 cost outlier threshold by approximately 4% for APR–DRG hospitals.
- Changes in the most recent hospital–specific California hospital and border hospital wage area index values as provided by the Centers for Medicare and Medicaid Services and adjusted by the California Wage Area Neutrality Adjustment of 0.9690.
- Applications of labor share portion according to the Medicare rule, by which hospitals having wage areas less than or equal to 1.0 will be at 62% and hospitals having wage areas greater than 1.0 will be at 69.6%.
- Discharge status codes 82, 85, 91, 93, and 94 were added for Medi–Cal Fee–for–Service stays.

DHCS is seeking federal approval for a State Plan Amendment to develop a process to end a hospital’s enhanced Neonatal Intensive Care Unit (NICU)–policy adjustors to the hospital’s APR–DRG payments when both occur: (1) the hospital has its status as a Regional NICU or Community NICU with neonatal surgery revoked by California Children’s Services (CCS) and (2) DHCS does not yet have a SPA approved to remove the hospital from the list of hospitals eligible for the NICU–policy adjustor. The effective date of adopting this process will be July 1, 2016.

PUBLIC REVIEW AND COMMENTS
